Nationality: Dutch

Profile

Results-oriented Senior Project Delivery Lead and Manager with extensive international experience in leading high-impact projects within the energy & construction sector. Demonstrated expertise in project feasibility, Design, planning, and execution, with a strong focus on delivering world-class HSE (Health, Safety, Environment) performance. Proven ability to manage complex projects from inception through to successful completion, ensuring compliance with global & local standards and industry best practices. Fluent in Arabic, English, and Dutch, I bring a deep understanding of the cultural and business landscapes across Europe and the GCC. My leadership in transitioning organizations towards net-zero goals aligns perfectly with a vision for a sustainable future.

2023 – Present | British Petroleum (BP), Euro Port Refinery – the Netherlands

Project Execution Manager for BP Pulse | The Netherlands | Belgium | Luxembourg | France.

- **Directed a €80 million mobility electrification project** overseeing the installation of over 400 EV charging points, while managing end-to-end project processes and scopes, including planning, scheduling, budgeting, procurement, concept & design development, and construction resource management, to ensure timely and within-budget completion.
- **Leading market entry** for BP Pulse in Belgium and Luxembourg with a €30 million EFM.
- **Implementing project pipelines & designs** that enhance energy diversity and sustainability, and collaborating with key stakeholders such as SPIE, Arcadis, Volks Wagen, Siemens, ENGIE, DNOs and local municipalities across EU to drive compliance and success.
- **Spearheaded stakeholders engagement** with BP pulse global, ARAL, EPC engineering-contractors and JVs, ensuring alignment on project objectives and regulatory requirements across the region, while optimizing project controls to reduce costs through efficient budgeting.
- **Ensured world-class Designs and HSSE performance**, implementing robust safety protocols that resulted in zero incidents across all project phases.

2021 – 2023 | Shell - Aecom Benelux, The Hague, the Netherlands

Project Manager / Architectural Design Manager Sustainability for Shell petroleum projects | BeNeLux | Spain | Romania

AECOM

- **Led the design and delivery of renewable energy projects for Shell**, including the deployment of over 200 EV charger's retail stations, LNG, H2, and biofuels projects.
- **Developed and managed project pipelines** for the integration of hydrogen (H2) compounds, to include data centers for high-profile clients like the U.S. Department of Defense.
- **Collaborated with strategic partners** such as DB, McKinsey & Co, and Q-Park, ensuring all projects met stringent regulatory and standards, and led cross-functional Design and engineering teams in Romania and Spain, on-time delivery, and world class designs.
- **Produced significant results** by standardizing processes and enhancing project efficiency, ensuring compliance with security and operational standards, and advancing Shell's sustainability initiatives, while maintaining high-aesthetic functional, and sustainable designs.

2021 | Water Research Center, Zurich, Switzerland

Architecture and Design Manager – One year commission project governmental

- **Transformed a spa into a water research and cultural center** in Zurich, collaborating with local authorities and renowned Swiss Architect Christian Müller, employing innovative design principles and sustainable practices to enhance the center's functionality and appeal.

2020 | Cloud Kitchen, Amsterdam, the Netherlands

Architecture and Design Manager – One year target project

- **Led the development and expansion** of 50+ energy-efficient cloud kitchens, designing, permitting, managing contractor relationships, cost control, and real estate market research, achieving a 30% reduction in energy consumption and strategically positioning the company for growth in the food delivery market in The Netherlands.

2017 – 2018 | Royal HaskoningDHV, Rotterdam, the Netherlands

Urban Designer & Strategist

- **Directed urban development projects in the Netherlands and South Africa**, with a focus on integrating sustainability and resilience into urban planning—expertise that aligns with BP's commitment to creating sustainable communities.

2011 – 2017 | Mo. Kabbara Architecture Design Studio, Beirut, Lebanon

Founder & Lead Architect | GCC | Southwest Africa

- **Managed and expanded a team of 9 architects and engineers**, delivering 30+ multifunctional real-estate development projects, including the \$25 million project, and closely liaising with clients to ensure projects met cutting edged design expectations and industry standards from concept to completion.
- Design and execution of multi-use projects in countries like **KSA | UAE | Kuwait | Qatar | Oman | Ghana | Liberia | Gene Equatorial & Nigeria**
